

Full or Half Full

Amazing Fact

If you live to be 80 years old, your body will have made enough saliva to fill 2 swimming pools!

Challenge

Read the labels on the following page and colour the containers to show whether they are full or half-full.

You could also try to find out:

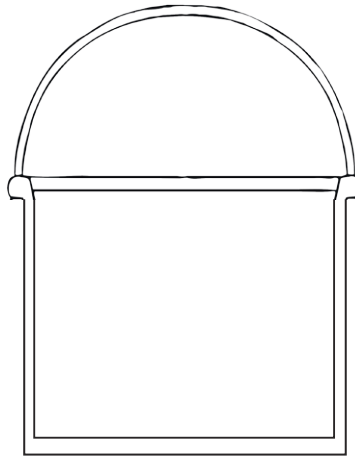

- why your body makes saliva;
- where in the body it is made;
- how big the largest swimming pool in the world is.
