Rounding decimals to 1 decimal place

Round each decimal to one decimal place. See examples below:

7.36	→	7.4
4.54	→	4.5

Remember that: for 5 or above, we round up. For 4 or below, we round down. Look at the final digit to help you decide.

3.69	→	
3.12	→	
7.39	→	
2.48	→	
1.33	→	
5.54	→	
3.29	→	
8.24	→	
9.52	→	
3.45	→
