

Fruity Feast

This term we are going to be making a fruity feast fit for a King and Queen. We are going to start off by looking at different fruits and vegetables and where they are grown.

How and Where Do Fruits and Vegetables Grow?

People often buy fruits and vegetables from the supermarket.

But have you ever wondered how and where they grow?

Where Do Fruits and Vegetables Grow?

Some fruits and vegetables are grown in the United Kingdom. Many are grown in other countries around the world, where the weather is different. Fruits like oranges and bananas are grown in hot countries.

Where Do Fruits and Vegetables Grow?

Some fruits and vegetables can only be grown in the United Kingdom during the summer, when it is warm.

If customers want to eat these fruits and vegetables all year round, shops have to transport them from warmer countries, so that people can still buy them.

If people from the UK buy raspberries from the supermarket in the winter, they will have been grown in warmer countries, like Spain.

How Does Fruit Grow?

Strawberries grow on small plants, just above the ground. They need warm weather to grow.

Apples grow on trees. They grow best in places with cold winters and warm summers.

Fruits

apple

banana

blackberry

cherries

peach

avocado

grapes

lemon

lime

mango

orange

watermelon

passion fruit

pear

pineapple

plum

tangerine

strawberry

I would like you to draw and label different fruits. If you have any fruit at home, have this in front of you to make an observational drawing, if not images on the internet etc.. are just as good. Please make sure you use appropriate colours when colouring.
