

Do you have one or more of the following **Covid 19** symptoms:
A **high** temperature; a new, continuous **cough**; loss or change to your sense of **smell** or **taste**

Yes? Isolate immediately and
book a **PCR** test via the NHS

Is the **PCR** test result positive?

Yes?

Everyone in your household must self-isolate from the day your symptoms started and the next 10 full days. Close contacts may be identified and instructed to isolate for 10 full days. Close contacts should also take a PCR test and continue to isolate even if the result is negative.

No?

You do
not need
to isolate

*If you or your child have other new or unusual symptoms or if in doubt, you can still get a PCR test, however, you do not need to self-isolate unless the test result is positive.

When booking a PCR test online tick the box that says:

"My local council or health protection team has asked me to get a test, even though I do not have symptoms."

*If you have had a positive PCR result in last 90 days, you should not get a PCR test

No? Take a rapid **LFD** test

Is the rapid **LFD** test result positive?

Yes?

You and your close contacts must self-isolate immediately and book a confirmatory PCR test via the NHS.

No?

You do
not need
to isolate

Is the **PCR** test result positive?

Yes?

Everyone in your household must self-isolate from the day you had the PCR test, if you do not have symptoms, and the next 10 full days. Close contacts may be identified and instructed to isolate for 10 full days. Close contacts should also take a PCR test and continue to isolate even if the result is negative.

No?

You do
not need
to isolate
