Advice to All Parents – Additional Single case of Covid in a Class

Dear Parents,

We have been made aware of a member of our school community who has tested positive for COVID 19. Your child has not come into contact with this pupil and can continue their normal activities.

The guidance has changed for children who have come into close contact with someone who has tested positive COVID 19 because of the new OMICRON variant. Children who have been identified as a close contact will be asked to complete Lateral Flow Tests for a 7-day period. Lateral flow tests are available from your local pharmacy, but if you are struggling to find some and if your child is identified as a contact of a case in school, we will be able to send LFT home for them.

We know that you may find this concerning but we are continuing to monitor the situation and are working closely with Public Health England. This letter is to inform you of the current situation and provide advice on how to support your child. Please be reassured that for most people, coronavirus (COVID-19) will be a mild illness.

The small number of children who have been in close contact with the individual who has tested positive for coronavirus (COVID-19) have received a letter informing them that they will need to do Lateral flow tests every day for 7 days.

The school will be closing today for the Christmas holiday, reopening on Wednesday 5th January 2022. Please could you email sbm@primet.lancs.sch.uk if anyone in your household tests positive for covid during the holiday.

Yours sincerely

Christopher Holmes
Head teacher
