

A passage of long sentences

Ellie's mother is an inventor. She has invented a robot that carries the shopping from the car to the house and puts it away in the right places. Imagine how the robot might work. Write an explanation. Use the clauses and conjunctions on page 19 to help you. Each sentence must have at least two clauses.

The robot uses its arms and grippers to lift the shopping out of the car, then

How did you do?

the robot has two long arms with grippers like hands

as if

or

although

and

it can pick things up just like a human

before

at the bottom is a big box

if

in its head there is a small computer

the robot can carry all the shopping

even though

when

as

after

but

as soon as

it puts it in the freezer

in order to

at the bottom is a big box

whereas

it starts sorting the shopping

until

it puts it in the fridge

there are rollers on its base

so

it scans the storage instructions

just as

because

whenever

then

while

unless

in case

it can roll into the house

it puts it in the cupboard

so that

How did you do?
